ProjectDox

Proven ePlan Review for Accela

Avolve's ProjectDox brings an ease-of-use applicant experience, reviewer efficiency and greater process insight to ePlan Reviews within your Accela system. ProjectDox is a process solution for ePlan Reviews that is integrated seamlessly with Accela®, including Accela Citizen Access® (ACA).

Become more competitive for growth development and job acceleration

Achieve faster permit issuance with ProjectDox fully integrated with Accela Citizen Access.

In ACA, the applicant can easily participate in uploading files, corrections, and enter correction responses with the assistance of step-by-step instructions and learn-how videos, all through a seamless integration with ProjectDox.

Solve versioning and review communication issues that are prominent with solutions utilizing PDF viewers and Accela workflows

Reviewers can rapidly resolve new corrections using a verify function that automatically opens and steps through each markup version and corrected version in compare mode. ProjectDox enables multi-departmental efficiency in performing plan reviews. It interweaves configurable workflows, markups viewers, file and version management, and applicant communication all together. The reviewer can utilize the markup viewer included or use Bluebeam Revu®.

Markups and other review comments are combined and available for all review cycles and participating departments. Reviewers can view their dashboards, reports and historical records. Applicants can respond online (in ACA) or offline using Excel.

Support your goals and do more with existing staff

Jurisdictions using ProjectDox find that ePlan enables them to meet their agency goals from a clean and sustainable work environment, citizen service excellence, or operational efficiency.

ProjectDox creates accountability through reporting and audit trails and enables flexibility with remote working.

Licensing

ProjectDox is SaaS licensed on Microsoft Azure, allowing for unlimited users.

ProjectDox provides best practices configurable workflows executing on a technology platform built just for plan review. It manages task assignments, email notices, file uploading and versioning, review correction assembly and communication, tracking time with applicant and with jurisdiction, validates digital certificates and approval stamping. The Accela and ProjectDox systems work together requiring very minimal changes to Accela workflows, and with greater flexibility for configuring plan reviews to specific review permit types as required.

Avolve's suite of ePlan Life Cycle products bring efficiency and ease to submitting, reviewing, approving, storing and accessing building plans and data within your jurisdiction.

Avolve Software is the global leader in electronic plan review

Over 250+ cities and counties across five countries use an Avolve electronic plan review solution. Avolve's ProjectDox has over 1,000 deployed plan review processes, with over 2 million plan reviews performed, on about 100 million plan set files.

No other company has our depth of plan review process knowledge and services experience.

"Getting projects approved quickly helps to deliver that better experience.... Avolve enable us to partner seamlessly with private industry in the development review process. Businesses want to go where government is their enabler, not their impediment."

"I have used all local jurisdictions' digital submittal processes and I have to say this was # 1 in ease of use, organization, and layout."
